

Sept. 22, 1780
Mr Mebane,

I am informed by General Gates that he is in great Want of Provision for the Troops under his Command, as well as Forage for the Horses; that unless he can be supplied, by having Magazines laid up by the State, he will be under the Necessity of permitting the Army to carve for itself, or must move the Troops away — he expresses an Unwillingness to do either —

From the Situation we are in, and the Necessity of procuring Supplies for the Army without Delay, I desire that you would lose no Time in obtaining them — You will try to purchase from the Farmers, but if they refuse to sell, you must then Seize both Provision for the Men, as well as Forage for the Horses —

Be careful to comply, as near as you can, with the Act of Assembly, both as to the Quantity you take, and the Certificates you give — You will inform me from Time to Time how you proceed —

Besides his role on the state Board of War, what other prominent roles did the writer, John Penn, have during the Revolution?

Armies had the right to take provisions they could find and promise payment at a later date. Does that seem right? Why or why not?

Sir,

The Society of People called Moravians, in Surry County have agreed with General Gates to send One Hundred sides of tanned Leather to this Place, but are desirous of having a Guard part of the Way to prevent being robbed —

As it is of Great Importance to have the Leather as soon as we can, I recommend it to you to give Directions, that a proper Guard may be furnished as far as you think it necessary — The Leather will be ready by the Time the Guard can be got — Three or four Setts of Shoemakers Tools are absolutely necessary, if they can possibly be got to send with the Leather — They have promised to provide a Waggon —

I am, respectfully, Sir

Halifax, 16th March 1781

I this Day received a Letter from Col^l. William R. Davis, C. G. B. S. L. C. dated y^e. 13th Instant, in which he mentions a probability of being distressed for Salt, having only five Days supply of that Article. & signifying the Stores already sent had not then joined them, which he attributed to the various Movements, both of the Enemy as well as our Army: also requested that I would forward 14 or 15 Hogsheads Rum & 3 or four Hogsheads Molasses —

I the other Day sent on six Hogsheads Rum, & should be glad you would forward on to Gen^l. Green's Head Quarters all the Molasses stored at Mr. Aburnathys, together with Salt if there be any stored near you — should you have it in your Power, may send on a Quantity of Salt, at Margon Lead, or two at least —

The Morning on which Col^l. Davis wrote me he informed that the Enemy were lying about three miles from Guilford Courthouse & our Army about 16 miles from that Place, in a Northern Position — that a complete junction of our Forces was then formed, & that we might expect to hear of something very Capital soon —

Hoping that you will do every Thing in your Power to serve our Friends — I am

The Petition of your Petitioners

Humbly sheweth that the Inhabitants of this County have laboured under some particular Difficulties since the British came in Pursuite of General Morgan. Our Salted provisions are taken, Our Cattle killed, many of our Plantations destroyed by the Enemy, that it is not probable provisions can be raised for our Families this Season & many of our Friends in this & the neighbouring Counties murdered by these Enemies of Mankind. On the little Property that is left, the Tories are frequently making Depredations either privately Stealing, or publicly robbing. Our Light Horse & Infantry frequently pursuing them; so that our Farms are uncultivated, our Families suffer, & other necessary Business much neglected.

That the above Grievances may be alleviated, we pray a Board of Auditors be appointed to sit in our County to examine & adjust our Claims.

We also pray that a Law be enacted directing the commanding Officer in way County to take what Tories he can & keep them under a sufficient Guard, & in the meantime publish

to every man for every robbery or murder committed, Retaliation should be ^{made} on such Tories. Prisoners as you in your Wisdom Judge proper, & your Petitioners as in Duty Bound shall ever pray

What should the state government do for these citizens?

What should the state government do to punish the Tories?
