

GENERAL CORRESPONDENCE, 1975

Accession information: Transferred from the Governor's Office on December 7, 1976; accessioned January 6, 1977.

Schedule Reference: None.

Arrangement: Alphabetical within series.

Finding aid prepared by: Robert G. Anthony, Jr.

Date: September 22, 1978.

The general correspondence file of the governor consists of letters, reports, speeches, statements, etc. Duplicate materials have been removed; and some weeding has been done in the Donald Smith - Ayden 11 file found under Department of Social Rehabilitation and Control, Board of Paroles, Prisoners' Requests (Boxes 354 and 355). A note of explanation follows the box descriptions.

Duplicate printed materials related to North Carolina have been transferred to the State Library. Empty file folders have been retained with a notice to that effect placed in the folder. The filing system used by the Governor's Office is essentially the same as the one initiated in 1967.

Although the structure of state government was changed in 1972 under the Executive Organization Act of 1971, the 1975 files do not always reflect this new structure. Some agencies are identified by their pre-1972 titles; and their records are filed under their old designations. Some altering of the files for the Department of Cultural Resources has been made; and a note of explanation of this follows the description for Box 316 contents.

The files are organized as follows:

State Agencies, Boards, and Commissionn

States File

Counties File

Associations and Organizations

Extraditions and Requisitions for 1975 (Boxes 507-539) are filed at the end of the records for 1976. See Finding Aid after Associations and Organizations.

*Although the Department of Art, Culture and History was reorganized as the Department of Cultural Resources in 1973, the Governor's Office continued to file under the former designation. When working the 1975 Papers, this error was corrected; and materials mistakenly filed under Division of Archives and History were removed and added to the Cultural Resources file where they belonged.
