

MILITARY COLLECTION
XVIII. MISCELLANEOUS PAPERS, VARIOUS DATES

This is a version of a collections finding aid used by the Military Collection prior to 2014, before collections were numbered and had their own individual collection finding aid. This old “series” of the Military Collection was originally labeled as the “Miscellaneous Papers,” but is now retitled as “Miscellaneous Military Papers”

There are far more collections in the Miscellaneous Military Papers holdings of the Military Collection than listed here. Some of the materials listed in this old finding aid have been reprocessed with new Military Collection collection numbers, replacing an older collection labeling system that did not use collection numbers. Some of the old collections stored in this series of Miscellaneous Military Papers were more appropriately stored within the WWI Papers, WWII Papers, Korean War Papers, or the new Cold War Papers grouping of military archival materials in the Military Collection For those collections that have been reprocessed, they were removed from this finding aid, leaving box number gaps.

The reprocessed collections and their finding aids are available for viewing the State Archives’ online catalog DOC. For information on the reprocessed collections, contact the State Archives of North Carolina’s Reference Unit or the Military Collection Archivist.
